# MOBILITY

Height adjustable DESK

# **Contents:**

- 01. Health**
- 02. Productivity**
- 03. Wellness**
- 04. Efficiency**

**“Mobility offers a wide range of model and different levels, which can be combined together so that the set-up possibilities are endless. Individual or twin desk configurations with a choice of cable trays and dividing screens. A desking system that allows for both individual and collective work”.**

ITEM DESIGNWORKS  
*Javier Cuñado*

**“Mobility ofrece un amplio abanico de niveles y modelos, totalmente combinables entre sí, de tal forma que las posibilidades configurativas son enormes. Mesas simples, dobles, crecimientos longitudinales concatenados y un espacio común en el que compartir elementos como canales de electrificación o paneles separadores. Un sistema de mesas que permite tanto el trabajo individual como el colectivo”.**

**“Le fait de passer trop d'heures assis amène des conséquences nombreuses et variées : douleurs musculaires, hernies, mauvaise circulation, risque d'affections graves, notamment obésité, diabète ou problèmes cardiaques. C'est pour éviter ce type de problèmes qu'est née la famille Mobility, le programme de tables réglables d'Actiu qui favorisent le travail debout en complément du travail assis”.**

**“Die Folgen von zu viel sitzender Tätigkeit sind vielfältig: Muskelschmerzen, Leistenbrüche, schlechte Durchblutung, Risiko für Krankheiten wie Übergewicht, Diabetes oder Herzprobleme u.a. Um diese Probleme zu vermeiden, wurde die Mobility-Familie ins Leben gerufen, Actiu's Palette an anhebbaren Tischen, die das Arbeiten sowohl im Stehen als auch im Sitzen fördern”.**

**Sitting for extended periods of time has many different consequences including muscle pain, hernias, poor circulation and risk of illnesses such as obesity, diabetes or heart problems. The Mobility family was created to prevent these health problems, with this programme of height adjustable desks by Actiu that promotes working sitting down or standing up.**

**Las consecuencias de pasar demasiado tiempo sentado son muchas y variadas: dolores musculares, hernias, mala circulación, riesgo de padecer enfermedades como obesidad, diabetes o problemas cardíacos, entre otros. Para evitar estos problemas nace la familia Mobility, el programa de mesas elevables de Actiu que promueven el trabajo de pie además de sentado.**

**NOMBREUSES SONT LES CONSÉQUENCES DUES AU FAIT DE RESTER ASSIS PENDANT DE LONGUES HEURES: DOULEURS MUSCULAIRES, HERNIES, MAUVAISE CIRCULATION, RISQUES DE MALADIES TELLES QUE L'OBÉSITÉ, LE DIABÈTE OU LES PROBLÈMES CARDIAQUES, ENTRE AUTRES. AFIN DE PALLIER À CE GENRE DE PROBLÈMES, VOICI LA FAMILLE MOBILITY, LE PROGRAMME DE TABLES RÉGLABLES EN HAUTEUR MIS AU POINT PAR ACTIU, QUI PERMET DE TRAVAILLER AUSSI BIEN ASSIS QUE DEBOUT.**

**Der Mensch hat das natürliche Bedürfnis, sich und seine Wirbelsäule zu bewegen. Langes Sitzen hat viele unterschiedliche Folgen, dazu gehören z. B. Muskelschmerzen, Bandscheibenprobleme, eine schlechte Durchblutung sowie ein erhöhtes Risiko, Krankheiten wie Fettleibigkeit, Diabetes oder Herzprobleme zu entwickeln. Um diese negativen Auswirkungen zu vermeiden, wurde die Produktfamilie Mobility entwickelt. Es handelt sich hier um ein verstellbares Tischsystem von Actiu, das die Arbeit im Sitzen und Stehen fördert, um so aus der Haltungsmonotonie auszubrechen und unser tägliches Wohlbedinden zu steigern.**

**Design, ergonomics, customisation and functionality working to help creativity, concentration, socialisation, motivation and, in particular, people's productivity and well-being.**

**Diseño, ergonomía, personalización y funcionalidad al servicio de la creatividad, la concentración, la socialización, la motivación y, sobre todo, del bienestar y la productividad de las personas.**

**Design, ergonomie, personnalisation et fonctionnalité au service de la créativité, la concentration, la socialisation, la motivation, et par-dessus tout, du bien-être et de la productivité des personnes.**

**Design, Ergonomie, Personalisierung und Funktionalität im Dienste der Kreativität, Konzentration, Sozialisierung, Motivation und vor allem des Wohlbefindens und der Produktivität des Menschen.**

**01 Actiu believes  
that the  
way to fight  
sedentarism  
is to stand up**

En Actiu pensamos que  
contra el sedentarismo hay  
que ponerse en pie

Chez Actiu, nous pensons que  
nous devons nous tenir debout  
afin d'éviter la sédentarité

Wir von Actiu glauben, dass  
wir uns gegen diese sitzende  
Lebensweise erheben müssen

Mobility Step is a robust range offering maximum stability yet with lightweight aesthetics. Designed to be used in office spaces, it is a cost-effective solution for incorporating height-adjustable desks into spaces that seek to become more versatile as well as safeguarding well-being and boosting productivity.

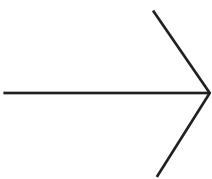

Mobility Step es nuestro programa de mesas elevables para ofrecer una solución al sedentarismo y los problemas de salud derivados de éste en los espacios de trabajo. Dolores musculares, hernias, mala circulación o problemas cardiovasculares constituyen una amenaza para el bienestar de las personas a la que se puede hacer frente desde el mobiliario.

Mobility Step est notre programme de tables réglables en hauteur qui permet d'offrir une solution contre la sédentarité et les problèmes de santé qui en découlent dans les espaces de travail. Douleurs musculaires, hernies, mauvaise circulation ou problèmes cardiovasculaires font partie des menaces pouvant s'abattre sur le bien-être des personnes. À présent, il est possible d'y faire face grâce au mobilier.

Mobility Step ist unser Sortiment an Hubtischen, die eine Lösung für die sitzende Lebensweise und die damit verbundenen Gesundheitsprobleme am Arbeitsplatz bieten. Muskelschmerzen, Leistenbrüche, Durchblutungsstörungen oder Herz-Kreislaufprobleme stellen eine Bedrohung für das Wohlbefinden der Menschen dar, die durch das Mobiliar bewältigt werden kann.

02

### Spaces that seek to become more versatile and productive

Espacios que buscan tanto ganar en polivalencia como en productividad

Des espaces ayant pour objectif de gagner en polyvalence et en productivité

Räume, die sowohl von Vielseitigkeit als auch von Produktivität profitieren wollen

Mobility Step is a robust range offering maximum stability yet with lightweight aesthetics. Designed to be used in office spaces, it is a cost-effective solution for incorporating height-adjustable desks into spaces that seek to become more versatile as well as safeguarding well-being and boosting productivity.

Mobility Step es un programa robusto, de máxima estabilidad pero de estética ligera. Orientada a espacios operativos, se trata de una solución competitiva para incorporar mesas elevables a espacios que buscan tanto ganar en polivalencia como en bienestar y productividad.

Mobility Step est un programme robuste d'une stabilité maximale, mais doté d'une esthétique légère. Destinée aux espaces de travail, cette solution compétitive comporte des tables réglables en hauteur pour équiper des espaces qui ont pour objectif de gagner en polyvalence, en bien-être et en productivité.

Mobility Step ist ein robustes Programm mit maximaler Stabilität bei gleichzeitig leichter Ästhetik. Entwickelt für den Einsatz in Betriebsräumen, ist es eine wettbewerbsfähige Lösung für die Integration von Hubtischen in Räumlichkeiten, die sowohl von Vielseitigkeit als auch von Wohlbefinden und Produktivität profitieren wollen.

TAKE THE WELL-BEING  
AND PRODUCTIVITY OF  
YOUR COMPANY TO THE  
NEXT LEVEL

## A range for Cool Working spaces

Cool Working is our own dynamic accompaniment process, which allows us to understand our customer's needs from the perspective of the user experience, providing innovative and sustainable solutions resulting in workspaces that are in line with their corporate strategy.

Cool Working es un proceso propio de acompañamiento dinámico , que nos permite entender las necesidades de nuestros clientes desde la perspectiva de la experiencia del usuario, aportando soluciones innovadoras y sostenibles para crear espacios de trabajo que den respuesta a su estrategia corporativa.

*Cool*  
**WORKING**  
by ACTIU

Cool Working est un processus d'accompagnement dynamique proposé par Actiu. Il nous permet de comprendre les besoins de nos clients en nous basant sur la perspective de l'expérience utilisateur, et en apportant des solutions innovantes et durables, afin de créer des espaces de travail qui répondent à la stratégie d'entreprise.

Cool Working ist ein eigener dynamischer Begleitprozess, der es ermöglicht, die Bedürfnisse unserer Kunden aus der Perspektive des Nutzererlebnisses zu verstehen und innovative und nachhaltige Lösungen zur Schaffung von Arbeitsräumen anzubieten, die der Unternehmensstrategie entsprechen.

03

**Improves the  
working life of  
professionals in  
all disciplines**

Mejora la vida de laboral  
de los profesionales de  
todas las disciplinas

L'amélioration de la qualité de  
vie au travail des professionnels  
issus de toutes les disciplines

Verbessert das Arbeitsleben von  
Fachleuten in allen Disziplinen

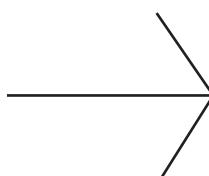

Mobility Step improves the working life of professionals in all disciplines. Designers, architects, creative types and lawyers benefit from a healthier working style by alternating between working standing up and sitting down to create new work dynamics.

Mobility Step mejora la vida laboral de los profesionales de todas las disciplinas. Diseñadores, arquitectos, creativos o abogados, se benefician de un estilo de trabajo más saludable alternando lapsos de tiempo sentados con otros de pie para crear nuevas dinámicas laborales.

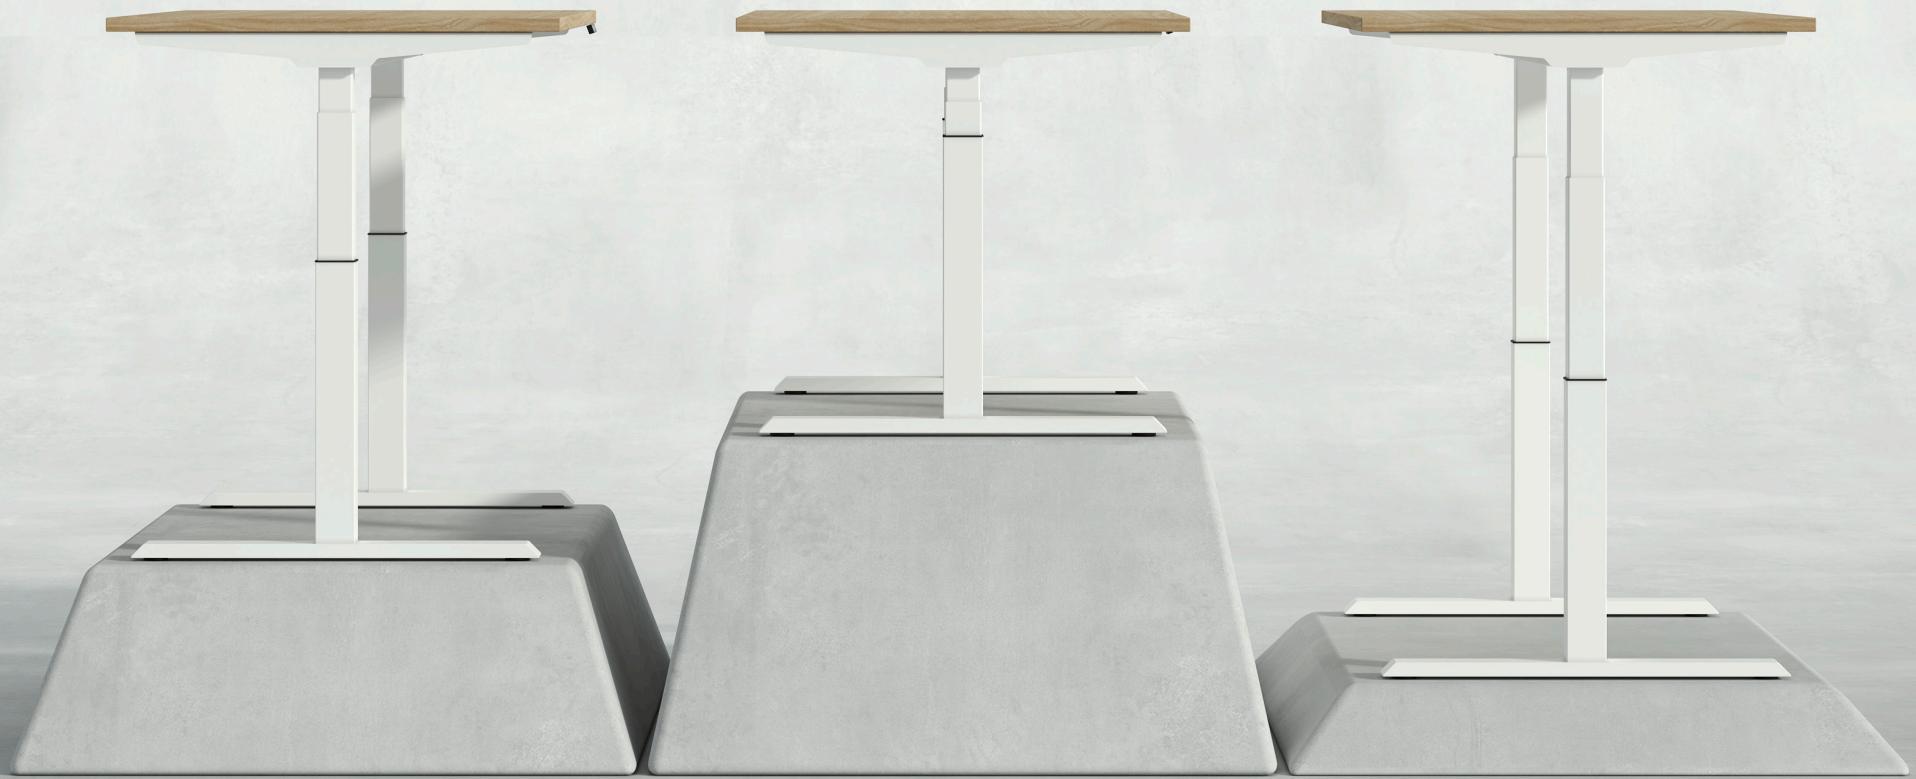

Mobility Step améliore la qualité de vie au travail des professionnels issus de toutes les disciplines. Designers, architectes, créateurs ou avocats, tous profitent d'un mode de travail plus sain, qui alterne temps de travail assis et temps de travail debout, afin de créer de nouvelles dynamiques professionnelles.

Mobility Step verbessert das Arbeitsleben von Fachleuten aller Disziplinen. Designer, Architekten, Kreativschaffende oder Juristen profitieren von einem gesünderen Arbeitsstil, indem sie abwechselnd im Sitzen und im Stehen arbeiten, um eine neue Arbeitsdynamik zu schaffen.

WE WORK SO THAT  
EVERYONE CAN ENJOY  
THE SAME WELL-BEING

The paradigm shift in the workplace and the emergence of nomadic workers call for greater flexibility in the office. In this regard, Mobility Step is the perfect solution for Hot Desking and optimising office space and costs. With Mobility Step, in coworking and corporate offices alike, each workplace can be adapted to the user's needs at any given moment..

El cambio de paradigma laboral y la aparición de trabajadores nómadas exigen una mayor flexibilidad en la oficina. Mobility Step se presenta en este sentido como una solución ideal para permitir la práctica del HotDesking y optimizar el espacio y los costes de la oficina. Tanto en coworkings como en oficinas corporativas, con Mobility Step cada puesto de trabajo puede adaptarse a las necesidades de la persona que lo ocupa en cada momento.

## Improve the possibilities of your space

Le changement de concept de travail et l'apparition de travailleurs nomades exigent plus de souplesse au bureau. Dans cette optique, Mobility Step se présente comme une solution idéale qui permet la pratique du Hot Desking, ainsi que l'optimisation de l'espace et des coûts liés au bureau. Dans le coworking comme dans les bureaux d'entreprise, avec Mobility Step, chaque poste de travail peut s'adapter en permanence aux besoins de la personne qui l'occupe.

Der Wandel des Arbeitsparadigmas und das Aufkommen nomadisierender Arbeitnehmer erfordern eine größere Flexibilität im Büro. In diesem Sinne wird Mobility Step als eine ideale Lösung vorgestellt, um die Praxis des Hot Desking zu ermöglichen und Büroflächen und Kosten zu optimieren. Sowohl in Coworkings als auch in Firmenbüros kann mit Mobility Step jeder Arbeitsplatz jederzeit an die Bedürfnisse der Person angepasst werden, die ihn besetzt.

04

A quick  
meeting  
can get any  
project off the  
ground

Una reunión rápida puede  
conseguir que cualquier  
proyecto eche a andar

Une réunion brève peut  
réussir à faire marcher  
n'importe quel projet

Eine zügige Arbeitssitzung  
kann jedes Projekt auf den  
Weg bringen

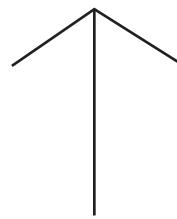

Meetings that drag on forever are one of the main causes of inefficiency in organisations. Hence, the increasing popularity of scrum meetings. Their aim is to evaluate projects and share information. Mobility Step has meeting tables capable of providing spaces for these meetings to be held while standing up, thereby leading to greater agility by facilitating decision making or preventing each team member from elaborating more than is strictly necessary.

Las reuniones que se alargan eternamente son una de las principales causas de inefficiencia en las organizaciones. De ahí que las scrum meetings sean tendencia. Su objetivo es evaluar proyectos y compartir información. Mobility Step dispone de mesas de reunión capaces de habilitar espacios para hacer que estos encuentros se produzcan de pie, con lo que se consigue una mayor agilidad al incrementar la toma de decisiones o evitar que cada miembro del equipo se extienda más de lo necesario.

Les réunions qui s'allongent indéfiniment constituent l'une des causes principales de l'inefficacité dans les entreprises. C'est ce qui explique pourquoi les scrum meetings sont tendance. Leur objectif est d'évaluer des projets et de partager les informations. Mobility Step dispose de tables de réunion permettant d'équiper des espaces pour qu'ils accueillent ces rencontres debout. Cette méthode donne davantage d'agilité, car elle augmente la prise de décisions, tout en évitant que chaque membre de l'équipe s'étende plus que nécessaire.

Ewig lange Sitzungen sind eine der Hauptursachen für Ineffizienz in der Organisation. Daher sind Scrum-Meetings ein Trend. Ihr Ziel ist es, Projekte zu evaluieren und Informationen auszutauschen. Mobility Step verfügt über Besprechungstische, an denen diese Besprechungen im Stehen stattfinden können, wodurch eine größere Beweglichkeit erreicht wird, indem die Entscheidungsfindung verbessert wird oder indem verhindert wird, dass sich jedes Teammitglied länger als nötig ausschweift.

## TECHNICAL FEATURES

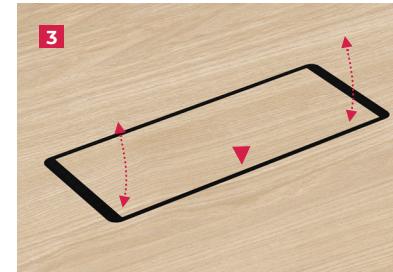

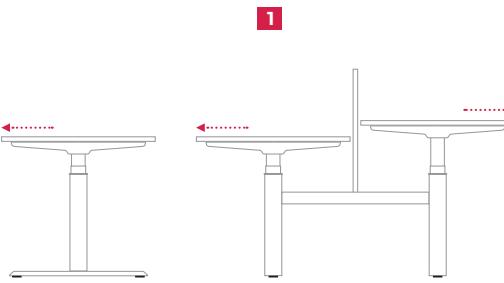

Información técnica

This programme of height adjustable desks is the result of intensive research on occupational health and the needs of the user in order to improve their well-being. A flexible, versatile and responsive product designed by ITEMDesignworks and Actiu's R&D team.

Este programa de mesas elevables es el resultado de una intensa investigación sobre la salud laboral y las necesidades de los usuarios para mejorar su bienestar. Un producto flexible, versátil y receptivo diseñado por ITEMDesignworks y el equipo de I+D+i de Actiu.

Ce programme de tables réglables en hauteur, représente l'aboutissement d'une intense recherche sur la santé au travail et sur les besoins des utilisateurs afin d'améliorer leur bien-être. Un produit flexible, polyvalent et réceptif, conçu par ITEMDesignworks et l'équipe de R+D+i d'Actiu.

Dieses höhenverstellbare Tischsystem ist das Ergebnis intensiver Nachforschungen über die Gesundheit am Arbeitsplatz und die Bedürfnisse der Benutzer, um ihr Wohlbefinden zu verbessern. Ein flexibles, nützliches und ergonomisches Produkt, das von ITEMDesignworks und Actius F+E+I-Team entworfen wurde.

**1 Sliding desk top (Optional)** / Desplazamiento de tablero (Opcional)

**2 Steel or melamine modesty panels** / Faldón de chapa o melamina

**3 Flip up cable access** / Acceso de Cableado

**4 Cable trays** / Canales electrificación

**5 Upholstered and acoustic desktop screens** / Divisoria Tapizada y Foamizada

**6 CPU holders** / Soportes CPU

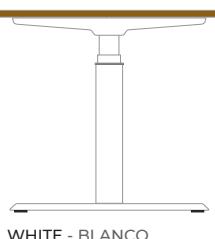

**7 UP & DOWN control or Control with digital programmable module**

Mando de control. UP & DOWN o PROGRAMABLE

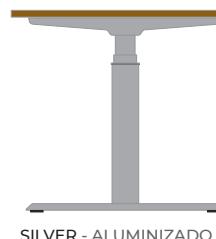

**8 Hand crank elevation** / Manivela de elevación

# MOBILITY STEP

– By Actiu –

## MOBILITY STEP

**Mobility**, the height adjustable desk capable of looking after your health while you work. Working on your feet for a few hours during the working day not only has a positive impact on health and well-being, it also improves your ability to concentrate and boosts productivity.

**Mobility** is the solution for work spaces that guarantee success. Giving support to multiple cultures and work styles. The height of each desk can be regulated in an independent way. Mobility promotes individual welfare and development.

## ACTIU

[www.actiu.com](http://www.actiu.com)

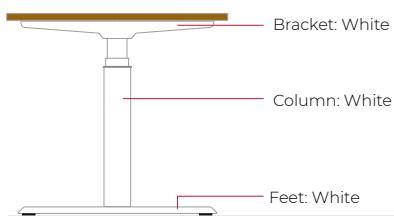

*Design goes beyond aesthetics: innovation, space and furniture go hand in hand to create environments that are friendlier, more comfortable and more motivating for people: environments that are more dynamic, fresh, creative, ergonomic and functional.*

*A business philosophy in which design is part of our DNA, as we apply it to every facet of the company: products, architecture, projects, brand, communication, work spaces ...*

## ■ ELECTRONIC ELEVATION

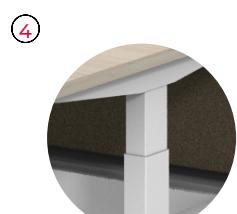

## ■ DESCRIPTION

- ①** Available in melamine with straight edge. Optional sliding tops.
- ②** Metal legs of steel tube 70x70 mm and t=1,5 mm. Available in white, black and silver finishes.
- ③** **Single**. Aluminium injected leg. Dimensions 720x78 mm. Available in white and silver.  
**Twin**. Black ABS trim profile with PP levelers.
- ④** Electronic elevation. 64 - 129 cm. Fulfil EN 527-1:2011.  
Incorporates anti-collision security system with objects.
- ⑤** Levelers made of injected PP in black. Anti Slip pad.
- ⑥** Desktop screens and accessories:
  - Vertical desktop screens, in: melamine, glass, fabric or SPLIT
  - CPU's, desktop screens and modesty panels.
- ⑦** Optional Electrification:
  - Electrification tray made of steel 1 mm thick. Finished in white and silver
  - Easy access to electrification tray using a sliding desktop (**Optional**)
  - Access to wiring "T", via PUSH LATCH system. (**Optional**)

**SALES DEPARTMENT**.

## ■ ELECTRONIC ELEVATION - GEN

## ■ DESCRIPTION

- ① Available in melamine with straight edge.
- ② Metal legs of steel tube 70x70 mm and t=1,5 mm. Available in white, black and silver finishes.
- ③ Totem made of steel plate 1 mm thickness, hiding the structure and trim product. Available in white, black and silver finishes.
- ④ Black ABS trim profile with PP levelers.
- ⑤ Electronic elevation. 64 - 129 cm. Fulfil EN 527-1:2011. Incorporates anti-collision security system with objects.
- ⑥ Levelers made of injected PP in black. Anti Slip pad.
- ⑦ Desktop screens and accessories:
  - Vertical desktop screens, in: melamine or fabric
- ⑧ Optional Electrification:
  - Electrification tray made of steel 1 mm thick. Finished in white, black and silver
  - Access to wiring "U" (Optional)

TOP WITH  
STRAIGHT EDGE

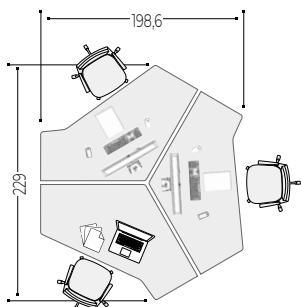

3 STAGES  
Electronic elev.  
2 Motors  
H 64- 129 cm.

Flip-up cable access

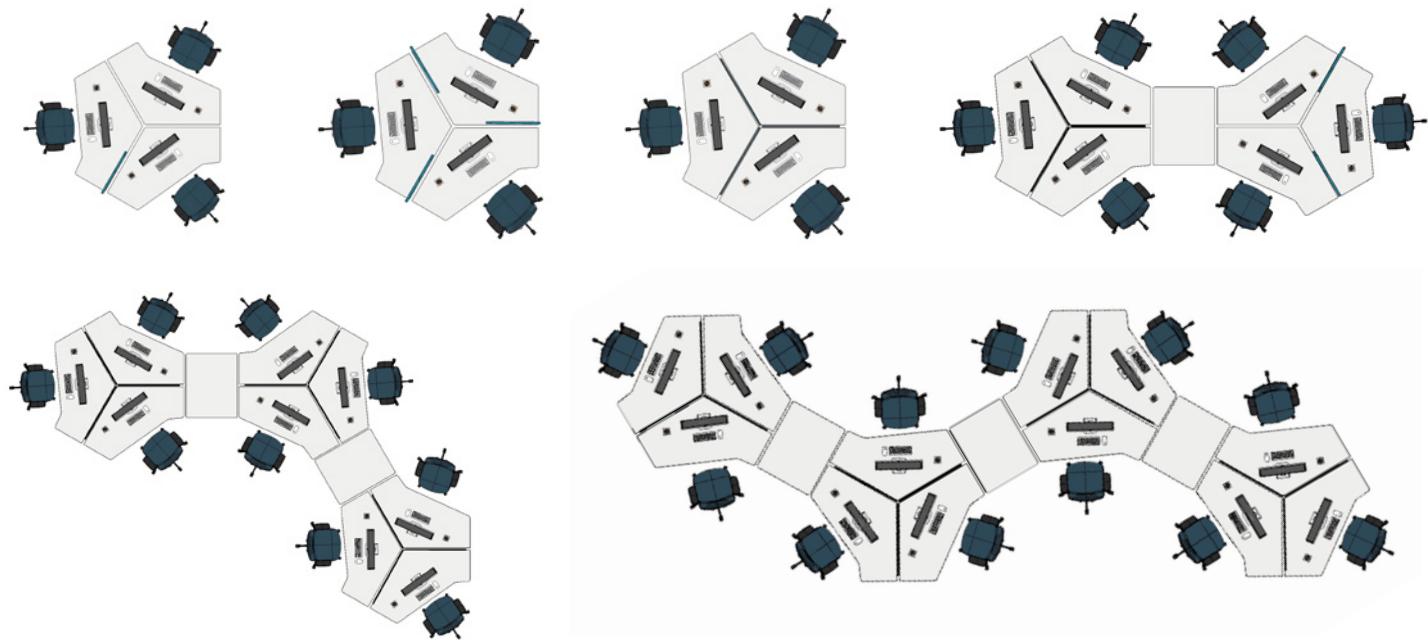

## Mobility Step - GEN

Mobility StepGEN, allows for different usability as a workstation:

- Use in Hot Desking (unassigned spaces), administrative spaces, workstations with laptops or light devices... where a large work surface is not needed for daily use
- Use in Fixed Stations (assigned spaces), open plan desking, workstations with computers and larger screens... where a large work surface is needed for daily use and the administration of different material.

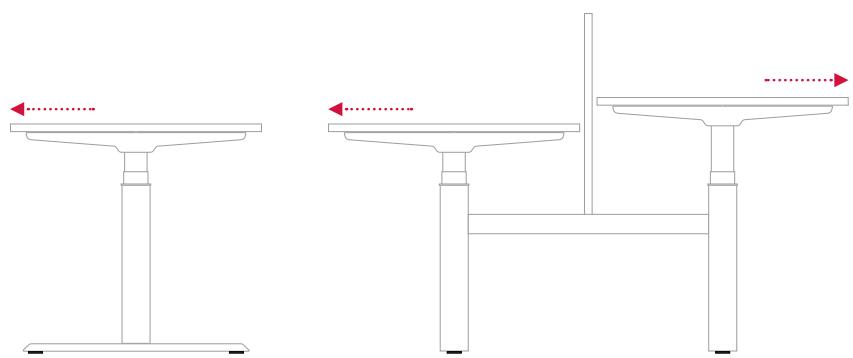

### ■ CONFIGURATION EXAMPLES

## ■ SLIDING DESK TOP - OPTIONAL

**Sliding desk top (13 cm). Total accessibility to the electrification tray.** It enables the sliding of desktops for **twin and single desks** towards the user, allowing easy access to the electrification tray.

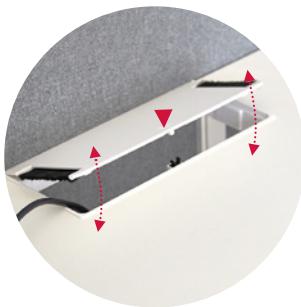

**OPTIONAL FOR TWIN DESKS** - There is an option for a bigger twin cable tray with metal cover to be used as a cable houser and drive cables through multiple cable trays.

## ■ ACCESSORIES

Electrification trays for individual and twin desks

Flip up cable access

Steel or melamine modesty panels

Upholstered and acoustic desktop screens 20/40 mm. With soundproofing properties

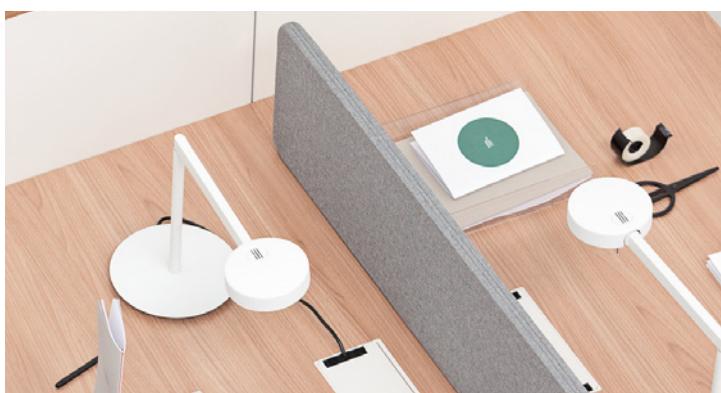

CPU Support

UP & DOWN control or Control with digital programmable module for desks with electronic elevation.

33 mm / s

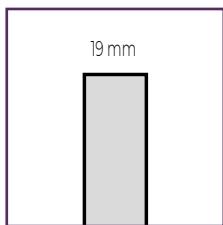

### Desks mounted screens

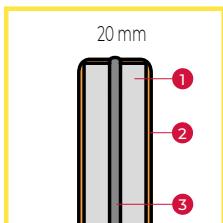

Desk-Mounted screens, different sizes available, fixing kits and finishes. Easy to be adapted to any surface. They provide visual contact but at the same time privacy. Twin desks with electrification system have their own desk-mounted screens (D50 Serie for Vital or Arkitek)

### DESK MOUNTED SCREENS OFFER

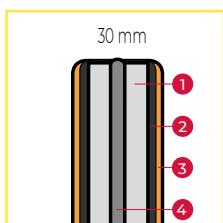

#### MFC SCREEN - e=19mm

19 mm thick Chipboard

#### UPHOLSTERED SCREEN with flexible profile - e=20mm

- ① 19 mm thick Chipboard
- ② Different fabrics available glued using water glue.  
- Optional acoustic or fire resistant fabrics for projects.
- ③ 8mm thick flexible Profile

#### UPHOLSTERED SCREEN with flexible profile - e=30mm

- ① 19 mm thick Chipboard
- ② Foam thickness e= 5 mm and 60 Kg/m<sup>3</sup> density (etotal= 30 mm)
- ③ Different fabrics available glued using water glue.  
- Optional acoustic or fire resistant fabrics for projects.
- ④ 8mm thick flexible Profile

## NOISE POLLUTION IN THE OFFICE

Generally, the noise pollution levels in an office do not constitute a hearing risk for the people, however it can generate inconveniences that may affect concentration, work performance or attention span.

Acoustic comfort is the sound level that does not disturb and does not cause direct damage to health. The acoustic comfort is better in offices with high level of acoustic products.

### REFERENCE VALUES

There is no mandatory acoustic legislation. Nevertheless, according to the Technical Guide from RD 488/1997, April 14, noise should not exceed 55 dB(A) when the user is doing difficult tasks.

- |                              |          |
|------------------------------|----------|
| • Basic building legislation | 88 dB(A) |
| • Professional office        | 40 dBA   |
| • Offices                    | 45 dBA   |

### CAUSES OF ACOUSTIC POLLUTION

- Attitude of the user. Does he accept it or not.
- Physical features of noise
  - » Types of tones. Pure tones (those that do not vary in frequency) more annoying than the compounds. Even more when aired on audible frequencies (500 – 2000Hz)
  - » Frequency. More annoying high frequencies than low ones.
  - » Randomness. The variation in noise annoyance increases.
- Non physical characteristics. The most annoying noise is the less predictable noise.
- Type of activity. Higher discomfort when more concentration is needed.

### HOW TO CONTROL NOISE SOURCES

- Controlling noise within teams by:
  - » Installing printers and faxes in remote rooms and areas
  - » Using silent office equipment, by adding insulated housing
  - » Lower the intensity of telephones and communication devices
  - » Use doors with spring systems....
- Control the noise within ventilation and air conditioning
- Avoid noise transmission between units using insulating the walls
- Creating acoustic barriers by:
  - » Using acoustic materials in the walls, ceilings and floors
  - » Using surfaces that do not reflect noise too much. (Reverberation Time  $\leq 1$  seg)
  - » Placing acoustic panels and screens between desks and workstations
  - » Provide office furniture that improves the acoustic behavior of space, hollow ceilings, carpeted floor, upholstered chairs....
  - » Respect the local occupancy according to its volume and its use
  - » Achieve quiet habits of conduct and communication

## MATERIALS

Maximum use of materials to eliminate and minimize scraps. Use of recyclable and recycled materials in those components that do not affect the functionality and durability.

**56,17%**  
RECYCLED MATERIALS

## PRODUCTION

Maximum optimization of energy use. Minimal environmental impact. Last generation technological systems. Zero discharge of wastewater. No VOC coatings. Processes free of heavy metals, phosphates, OC and COD.

**100 %**  
RECYCLABLE ALUMINIUM, STEEL & WOOD

## TRANSPORT

Detachable systems. Volumes that facilitate the optimization of space. Maximum reduction of energy consumption by transport.

**100 %**  
RECYCLABLE PACKAGE AND THINNER FREE

## USE

Quality and warranty. Long lasting. Replacements available.

**EASY**  
TO CLEAN AND MAINTAIN

## DISPOSAL

Waste reduction. Supplier-manufacturer packaging reuse system. Components are easy to be separated. Inks in packaging are water-based, without solvents.

**97,41%**  
RECYCLABLE MATERIALS

## Certificates

The different programmes get points in different environmental categories to get the LEED certificate or WELL certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).
