

SPACIO

— By Sigfrido Bilbao —

**SPA
CIO**

SPACIO combines simplicity and solid frame and functionality. A versatile solution for public and private environments, training rooms and waiting rooms.

SPACIO is a light and polyvalent chair for different environments such as contract or home office because of its design, different models and wide variety of colours and fabrics.

ACTIU

www.actiu.com

Design goes beyond aesthetics: innovation, space and furniture go hand in hand to create environments that are friendlier, more comfortable and more motivating for people: environments that are more dynamic, fresh, creative, ergonomic and functional.

A business philosophy in which design is part of our DNA, as we apply it to every facet of the company: products, architecture, projects, brand, communication, work spaces ...

Model	SPACIO
Model Reference	Beam seating
Model back	Polypropylene (P.P) back with 15% fiberglass. Wide range of colours. Optional Polypropylene (P.P) Arms reinforced with fibre glass.
Seat	Anti-skid surface Seat: <ul style="list-style-type: none"> • Shell, moulded Polypropylene (P.P) • Upholstered over foam (40-45kg/m³).
Structure/Base	Steel legs, cone shape 35 x 40 and 1,5 mm thickness. Silver epoxy coat, 90 micron and anti-bacterial treatment.
Supports	Moulded ABS leveler. Polyethylene (PE) caps Ø 40 mm.
Base	
Mechanism	
Dimensions *according to UNE-EN 1335-1	<p>Total dimensions: Total height: 830 mm Total width: from 1105 mm to 2184 mm Total depth: 590 mm</p> <p>Seat Dimensions: Seat height: 420 mm Seat width: 470 mm Seat depth: 440 mm</p>

Model	Packs	Weight	Volume	Materials Recycled materials	Production Aluminium, steel and wood	Transport Package and thinner free	Use To clean and maintain	Disposal Recyclable materials
		 KG	 m ³					
 2 seats	1	17	0,207	8,53%	100%	100%	Easy	98,99%
 3 seats	1	22,80	0,209	8,53%	100%	100%	Easy	98,99%
 4 seats	1	32,40	0,259	8,53%	100%	100%	Easy	98,99%

Materials: Maximum use of materials to eliminate and minimize scraps. Use of recyclable and recycled materials in those components that do not affect the functionality and durability.

Production: Maximum optimization of energy use. Minimal environmental impact. Last generation technological systems. Zero discharge of wastewater. No VOC coatings. Processes free of heavy metals, phosphates, OC and COD.

Transport: Detachable systems. Volumes that facilitate the optimization of space. Maximum reduction of energy consumption by transport.

Use: Quality and warranty. Long lasting. Replacements available.

Disposal: Waste reduction. Supplier-manufacturer packaging reuse system. Components are easy to be separated. Inks in packaging are water-based, without solvents.

Standards

SPACIO has passed tests done in our technical department as well as the tests done in AIDIMA the Technological Institute for furniture. The tests correspond to:

Standards	Description
Confident office chair:	
UNE-EN 13761:03.	Office furniture. Confident chairs.
UNE-EN 1022:05.	Office furniture. Confident chairs.
UNE-EN 1728:00.	Domestic furniture - Seating - Test methods for the determination of strength and durability.
Gas Lift:	
UNE-EN 1335-1:01.	Office Furniture. Office chair. Part 1: Dimensions.
UNE-EN 1335-3:09.	Office Furniture. Office chair. Part 3: Security essays.
Beam Seating:	
UNE-EN 16139:13.	Furniture. Resistance, long lasting, security. Requirements for non domestic use seating.

Certificates

The different programmes get points in different environmental categories to get the LEED certificate or WELL certificate (sustainability, material and resources, water, energy and atmosphere, inner environment quality, innovation and design).
